

Kiwisport Statement for Annual Report 2024

Kiwisport is a government funding initiative to support participation in organised sport. In 2024 Donovan Primary received \$5576.23. We were able to benefit all children from Year 0 to Year 6 by employing a sports facilitator. She took practices, organised teams, allocated uniforms and supported the players at some games.

These costs have benefited all students to help engage them in physical activity and/or team sports. We are seeing the benefits of this initiative as we have more students participating in sports.
