

Kiwisport Statement for Annual Report 2025

Kiwisport is a government funding initiative to support participation in organised sport. In 2024 Donovan Primary received \$6002.32. We were able to benefit all children from Year 0 to Year 6 by employing a sports facilitator. She took practices, organised teams, allocated uniforms and supported the players at some games.

These costs have benefited all students to help engage them in physical activity and/or team sports. We are seeing the benefits of this initiative as we have more students participating in sports. We have had over 240 children experiencing being involved in 16 different sporting codes.
